ANNEX 3

Written Tests

There will be two tests in the selection process:

- Test 1 – Verbal, Numerical and Visual-Spatial (VNVS) Test (50%)
- Test 2 – Motivation Focused Written Assessment (50%)

The standardized scores for the above tests will be weighted as 50% each. The tests can be taken either in English or Turkish language. **Applicants must indicate on the application form whether they want to take the tests in Turkish or English language. Once the application form is submitted, no change can be made in the choice of the language.**

Test 1: Verbal Numerical and Visual-Spatial (VNVS) Test

VNVS is a general ability test to measure candidates' broad capacity in numerical, verbal, and visual-spatial dimensions. It is designed to assess candidates' ability in two broad dimensions: quantitative and qualitative reasoning.

- The Quantitative Reasoning is the ability to use numbers and mathematical concepts to solve mathematical problems as well as the ability to analyse data presented in a variety of ways.
- The Qualitative Reasoning is the ability in expressing conceptual knowledge such as the physical system structure, causality, start and end of processes, assumptions and conditions under which facts are true.

Briefly quantitative reasoning is inferential whereas qualitative reasoning is interpretive. These two broad dimensions can be divided into several sub-dimensions as seen in Figure 1 below.

VNVS test consists of three dimensions: Verbal, Numerical and Visual-Spatial Reasoning. It is a multiple-choice test where the candidate chooses from five alternatives (A, B, C, D, E). In total there are 30 questions in the test, 10 in each dimension. Candidates have 25 minutes for the test. It is rare for a candidate to complete all 30 questions in such a short period of time, but the speed with which a candidate completes questions accurately is a factor in how high they score. There is no penalty for wrong answers.

PLEASE NOTE THAT:

- Candidates will mark their answers ON THE ANSWER SHEET ONLY NOT ON THE QUESTION PAPER. Only answer sheets will be marked.
- No extra time will be given to applicants to transfer their answers from the question paper to the answer sheet.
- Both the question paper and the answer sheet must be returned to the test invigilators.
- The number of correct answers will determine the raw score of the candidate.

Verbal Reasoning	Numerical Reasoning	Visual - Spatial Reasoning
Analogies	Number/Letter Sequences	Shape Combining
Classifications	General Arithmetic Aptitude	Mirror Image
Letter/Number Coding	Use of Tables/ Graphics	3D Objects: Nets

Figure 1: Sub-Dimensions of quantitative and qualitative reasoning

BEFORE THE EXAM TIPS FOR VNVS TEST

TIP 1: Review your number facts: addition, subtraction, multiplication, division, order of operations, using parenthesis, arithmetic sequences etc.

TIP 2: Review your basic problem solving skills: percentages, ratio, proportion etc.

TIP 3: Review visual-spatial exercises: the ability to form and comprehend in two or three dimension and to recognize relationships resulting from movement of objects in space.

TIP 4: Practice questions in the areas you think you are less competent.

DURING THE EXAM TIPS FOR VNVS TEST

TIP 5: Answer easy questions first, then harder ones.

TIP 6: Try to anticipate the correct answer before looking at the alternatives.

TIP 7: Pay attention to the qualifiers 'usually', 'none', 'always', 'never' and key words 'except', 'the best', 'the least' etc.

TIP 8: Read all of the alternatives (answers) and eliminate the ones you know are incorrect.

TIP 9: Look for alternatives that are the same with other alternatives. These alternatives cannot be the answer.

TIP 10: Sometimes the longer response may be the clue to the correct response.

Test 2: Motivation Focused Written Assessment

The **Motivation Focused Written Assessment** is designed to evaluate candidates' ability to articulate their future aspirations, educational and career goals, and their suitability for the scholarship grant.

Candidates are required to respond to a set of structured questions, each focusing on different aspects of their motivation and plans. Responses should be well-structured and concise, with a recommended word count of approximately **150-200 words per question**. It is crucial for candidates to address all parts of the questions comprehensively to ensure their answers provide a complete and compelling narrative.

The total time allocated for the **Motivation Focused Written Assessment** is **50 minutes**. Candidates are encouraged to manage their time effectively, allocating sufficient attention to planning, writing, and reviewing their responses.

Score Calculation and Promotion Methodologies

Annex 7 - Score Calculation and Promotion Methodologies

Under the Call for 2024/25 Academic Year, standardized scoring methodology will be used instead of the raw scores to calculate the final score of the candidate. Score standardization will be done for each application category/sub-category separately according to the following steps:

STEP 1: Subtract the average of the test from the score of the candidate and divide the result by standard deviation of the test:

STEP 2: Multiply the result obtained in STEP 1 by 10 and add 50.

$$(-0.69 \times 10) + 50 = 43.1$$

Calculation of the Total Test Score

$$\text{Total Test Score (TTS)} = (50\% \text{ of Standardized VNVS Score}) + (50\% \text{ of Standardized Motivation Letter Score})$$

An

Example of How Standard Scores May Effect the Rank of Candidates

The table on the left shows the ranking of a group of candidates according to raw scores total. However, the table on the right shows the ranking of the same group when the raw scores are transformed into standard scores. As can be seen in the table below, candidate number 12, who was in sixth place, rose to fifth place when the scores were converted to standard scores.

RAW SCORE POSITIONS				STANDARDIZED SCORING POSITIONS			
CANDIDATE NO	MOTIVATION LETTER RAW SCORE	VNVS RAW SCORE	TOTAL SCORE	CANDIDATE NO	STANDARDIZED MOTIVATION LETTER SCORE	STANDARDIZED VNVS SCORE	STANDARDIZED TOTAL SCORE
8	24	29,00	53,00	8	62,62	58,47	121,09
6	22	29,50	51,50	6	58,62	59,83	118,46
3	24	27,00	51,00	16	56,62	61,20	117,82
15	16	27,00	43,00	15	46,62	53,01	99,64
20	20	23,00	43,00	12	42,62	54,38	97,00
12	14	27,50	41,50	20	54,62	42,10	96,73
14	15	26,50	41,50	14	44,62	51,65	96,27

Following the score calculation, score reduction and score promotion will be applied where applicable for those applicants re-applying and/or applying to priority subject areas. Score reduction and score promotion methodologies are described below in detail.

1. Score Reduction for Re-Applicants

Score reduction will apply for applicants who benefitted from the EU Scholarship Programme before and are re-applying for 2024/25 Academic Year Call. The model, as explained below, is not a fixed reduction but is based on a reduction score that depends on the academic year the candidate benefitted from the EU Scholarship Programme before.

The score reduction will be applied on TTS after administering VNVS test and Motivation Letter. The candidates' ranking order within their sub-categories will be determined after including the reduction score to have a more holistic ranking assessment. In line with this, the following formula will be used:

Reduced Score = $TTS - 15/A$

“A” is the awarding age.

Academic Year	A	Reduction Score
2023/24 & 2024/25	not eligible to apply	
2022/23	1	16/1= 16
2021/22	2	16/2 = 8
2020/21	3	16/3 = 5.34
2019/20	4	16/4 = 4
2018/19	5	16/5 = 3.2
2017/18	6	16/6 = 2.67
2016/17	7	16/7 = 2.29
2015/16	8	16/8 = 2
2014/15	9	16/9 = 1.78
2013/14	10	16/10 = 1.6
2012/13	11	16/11 = 1.46
2011/12	12	16/12 = 1.34
2010/11	13	16/13 = 1.23
2009/10	14	16/14 = 1.14
2008/09	15	16/15 = 1.07
2007/08	16	16/16 = 1

For example, 1.6 reduction score will be applied for those applicants who benefitted from the EU Scholarship Programme in academic year 2013/14.

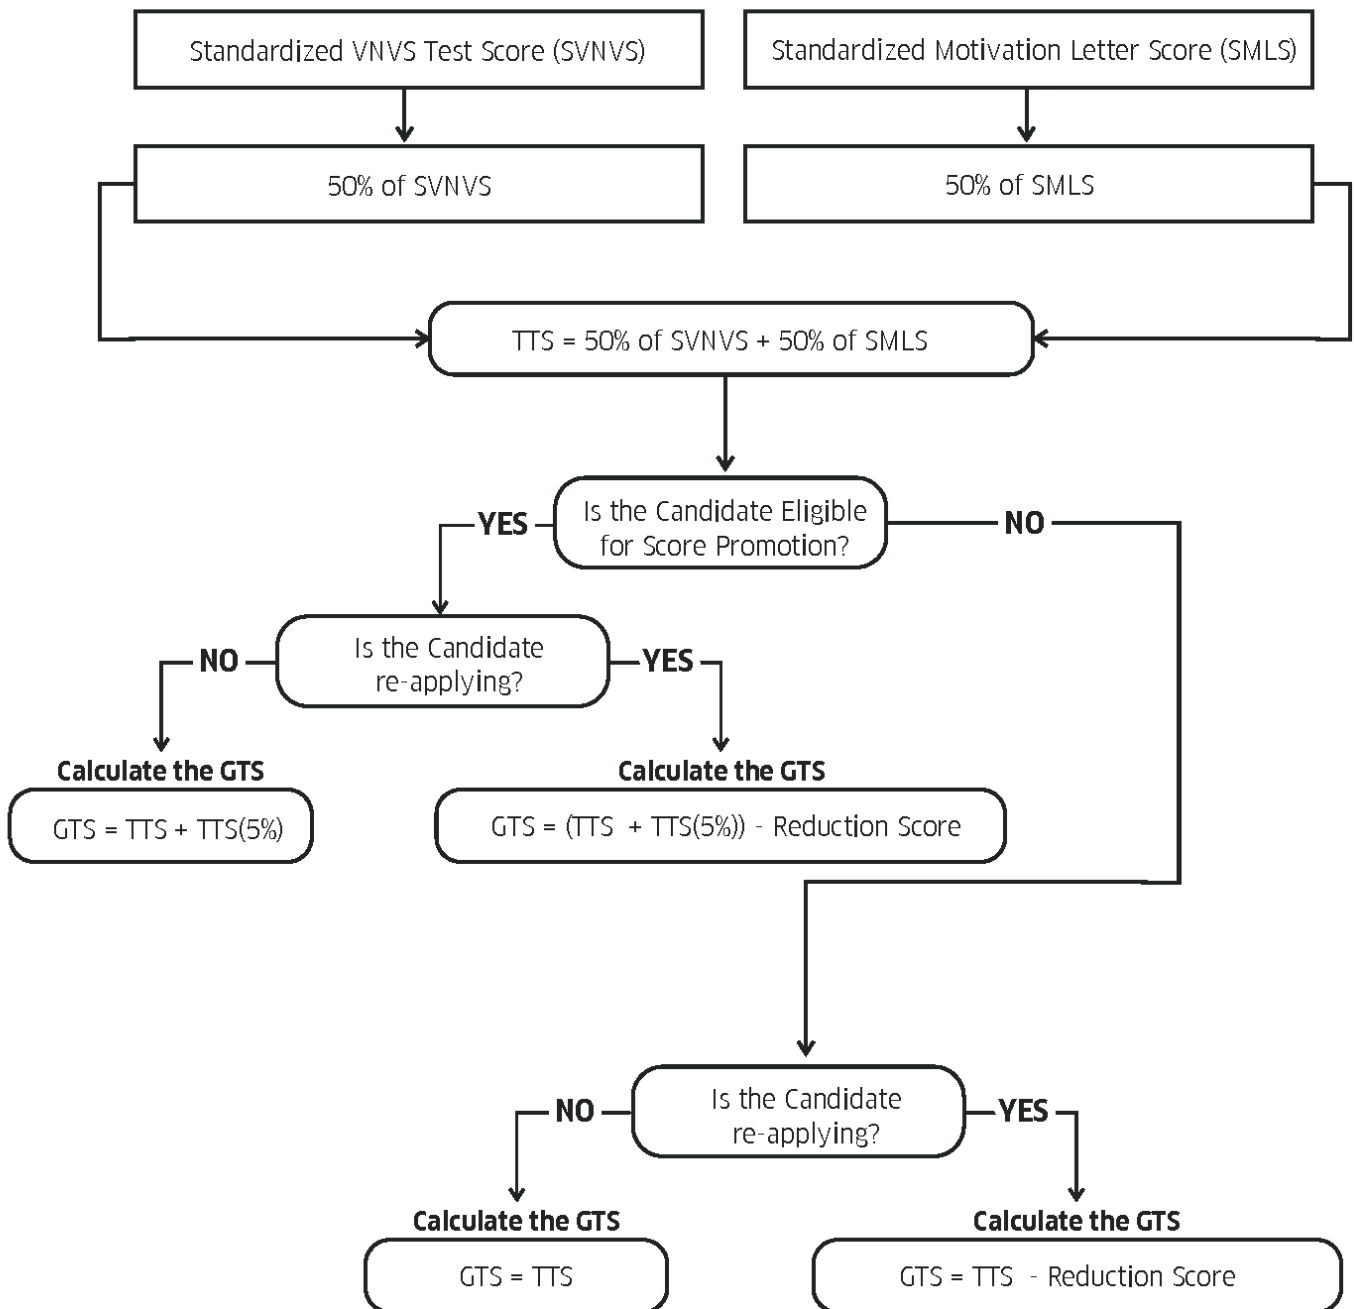

2. Score Promotion for Priority Subject Areas

Additional scores will be given to applicants applying for a priority subject area by using the following methodology:

- a) TTS is calculated as explained above.
- b) 5% of the TTS is added to the TTS for the candidates who applied for a priority subject area.

Applicants entitled to score promotion will compete with the applicants within their category/sub-category.

3. Calculation of Total Grand Score (TGS)
