SECTION 1 – OVERVIEW OF SCHOLARSHIPS

1.1 Introduction

In line with the objective of bringing the Turkish Cypriot community (TCc) closer to the European Union (EU), since 2007 the EU Scholarship Programme for the Turkish Cypriot community has provided scholarships to members of the Turkish Cypriot community to study and train in the European Union. The European Union will fund scholarship grants to Turkish Cypriot students, graduates, and professionals in the northern part of Cyprus. The EU Scholarship Programme has two major objectives:

- To promote social ties between the TCc and the European Union which includes direct ties, knowledge and understanding of the European Union, its values and cultural diversity;
- To boost economic development in the TCc, especially by helping to overcome the gap between the skills of the work force and those needed by employers.

1.2 Types of Scholarships

Under this call, there are **3 types** of scholarships to be awarded as outlined in the table below:

	Programme	Duration
TYPE 1	Pre-degree Undergraduate	One full academic year
TYPE 2	Postgraduate	One full academic year
TYPE 3	Short-term	Short-term 2-6 months

Table 1- Description of types of Scholarships

These guidelines are specifically for TYPE 3 scholarships for Short-Term Programmes (Category STP).

Scholars under this type will be able to follow **a short-term programme (STP) i.e., professional training/internship, language course, research or postdoctoral studies for at least 2 and up to 6 months** in a university or equivalent academic or professional institution or training / research center in an EU country with the exclusion of northern part of Cyprus.

Please note that:

Applicants for short-term programmes should adjust the start date of their programme in such a way that they should be able to finish their programme **latest by 15 September 2026**. This means, an applicant considering a 2-month programme should start the programme latest by **mid-July 2026** to be able to finish the programme **latest by 15 September 2026**. However, an applicant considering a 6-month programme, should start the programme latest by **mid-March 2026**. **The scholarship cannot be postponed.**

Please consider the following:

The scholarship will cover a period of a minimum of 2 and a maximum of 6 months.

- The programme chosen must be full-time.
- Distance and/or part-time programmes are not accepted.
- Minimum teaching/conduct hours of language courses should be 20 hours a week.

Application deadline for the academic year of 2025/26 scholarships is the 2nd of April 2025, Wednesday, by 23:59 hours Cyprus time. Applicants are permitted **to submit only one application**. Those submitting more than one application will be rejected. It is not possible to change from one category/sub-category to another after the online application form is submitted.

1.3 Priority Subjects

The list of priority subjects has been identified for 2025/26 academic year as a result of Skills Gap Analysis carried out by researchers in consultation with relevant stakeholders with the aim of contributing to the economic and social development of the Turkish Cypriot community and bringing the community closer to the EU.

Applicants may apply to enroll in a subject area specified in the priority subject list. It is important to note that having a module from the priority subject list does not qualify the applicant for a priority subject area. However, under the EU Scholarship Programme, there are no restrictions on the selection of a subject; applicants are free to apply in any desired subject area.

To encourage applicants to apply for a priority subject, a score promotion methodology will be applied to:

All applicants who choose a subject from the priority subject list for their studies.

A full list of priority subjects can be seen below. If you believe your choice of subject is the same with another in the priority subject list provided but cannot see the title in the list, please e-mail us at euscholarships-cyprus@goethe.de for guidance before submitting your online application.

Those who chose a priority subject on their application form cannot request to change their subject to another similar subject which is not in the priority list. Changing to a non-priority subject area will lead to disqualification from the EU Scholarship Programme.

For the score promotion methodology applied See ANNEX 7.

1.4 Grant and Budget Allocations per Category/Sub-category

Scholarship grants will be awarded as a contribution towards tuition fees, living allowance, and travel allowance (those who choose to study in Republic of Cyprus will not receive a travel allowance).

The percentages in the table below are based on a total annual scholarship budget allocated by the European Commission for the 2025/26 Call, approximately €1,869,230. This amount will be divided into different categories as follows:

- **42%** of total grant will be spent for **pre-degree** and **undergraduate studies**
- **38%** of total grant will be spent for **postgraduate studies**
- **20%** of total grant will be spent on **short-term programmes**.

It is important to note that the total number of awards in each category/sub-category will depend on the following variables, and therefore, the exact number of awards will be determined at the end of the selection process:

- Choice of host country; group 1, group 2, or group 3 (*see tables 2&3 below*)
- Tuition fee of host university/institution for the chosen subject
- Duration of the programme (for short-term scholars only)

The final distribution of the percentages to different grant categories is at the discretion of the Approval Board of the EU Scholarship Programme.

1.5 Grant Disbursement to Scholars

Under 2025/26 Call, the grants will be disbursed in 3 components:

- (1) Tuition Fee
- (2) Living Allowance
- (3) Travel Allowance

(1) Tuition Fee

There is a limit on the tuition fee to be paid. The maximum amount of tuition fee that can be paid for one academic year programme is €7,000. If the tuition fee is more than €7,000, the scholar will be responsible to pay the remaining amount. In the case of short-term programmes the maximum amount of tuition fee will be calculated on pro- rata basis (see Table 1 below).

Tuition fee will be paid upon receiving the invoice from the educational institution once the scholar has signed the grant contract with the Goethe-Institut, the contracting authority. Some educational institutions may require students to pay registration fee and/or full or a portion of the tuition fee before being officially enrolled to the host institution to guarantee their place. In this case the EU Scholarship Programme will reimburse the scholar for the eligible amounts upon receiving a document proving the payment has been done to the host institution by the scholar.

If any scholar is eligible for and intends to take up any other funding, i.e. sponsorship, scholarship and/or student loan specifically to cover their tuition fee, they will have to inform the EU Scholarship Programme as soon as possible (*see section 7.3.8 for details*). In the case of a scholar choosing to finance their tuition fees through another funding other than the EU Scholarship, Goethe-Institut will only be liable to pay the living and travel allowance to such scholars.

(2) Living Allowance for Short-Term Programmes

The amount of living allowance to be paid to the scholars depends on the host country selected for studying. **Table 2** below illustrates the country groupings. The calculation of living allowance for short-term programmes are on pro-rata basis (*see Table 3*).

The living allowance will be paid to scholars in two instalments. First instalment will be 80% of the total amount of the living allowance and will be paid after the grant contract is signed by the scholar and the Goethe-Institut. The second and final instalment of 20% will be paid after the scholar completes their studies and submits the online final report along with the required supporting documents.

A dedicated website, www.euburs.eu will be made available for potential applicants to familiarize themselves with the guidelines, eligibility criteria, application method and process.

To inform the potential candidates, information sessions (face-to-face if possible and online) will be organized to explain the eligibility criteria and describe the application process. These sessions will target high schools, universities, and professional organizations in different regions. - Once the pre-conditions are met to sign the grant contract, the candidates will be invited to sign the contract and they are strongly advised to review the contract conditions carefully before signing it.
- The Goethe-Institut will not release the fund even though a contract is signed with a scholar until they secure a visa if required by the host country.
